

## **Fire & Health Rules for Driving and Camping in Frontier Park**

Your assistance in meeting city fire and health codes is requested.

1. No camping will be allowed on the grounds unless proper health and fire regulations are met.
2. Camper space reservations will be available starting June 1 and on a first come, first serve basis, and payment must be made in order to reserve the space. A \$25 fee will be charged for each unit camping on the fairgrounds during the week of Fair. Campers are responsible for any damages or refuse left in camper spaces. Unsanitary or damaged spaces may result in cancellation of reservation for the following year. There will be no spaces available until the first Saturday of fair.
3. NO juvenile camps will be permitted. Each campsite must be supervised at all times by an adult (age 21 & over).
4. Self contained units will be allowed to remain in the park providing no waste material is expelled from the unit. A dump station is available in the campground. Campers who do not have waste facilities will be allowed, provided all trash and debris are disposed of in barrels located around the park, and restrooms facilities are used.
5. ABSOLUTELY NO TENTS will be allowed to be set up on the grounds under any circumstances.

6. Certain fire lanes as posted must be kept open for minimum safety. No hay or grain can be stored in or within 25 feet of any wooden stall or barn. A 25 foot fire lane must be kept open directly in front of all barns and stalls, and trailer and camper units cannot be left in these areas without maintaining proper safe distance from fire lanes. Any electrical hook-up can only be made at properly designated electrically grounded units. The park will be patrolled daily by fire and health authorities. A warning will be issued and time given to correct deficiencies. A second notice will be cause for ejection from the park. No privately-owned heavy equipment will be allowed on the grounds (i.e. tractors, loaders, etc.)
7. The road between the Beef Barn and the Swine Barn will be closed after weigh-in and will not be reopened until after the 4-H Sale on Saturday.

### **NO DOGS OTHER THAN HELP DOGS ALLOWED ON THE PARK DURING FAIR**

Ordinance No 1756 of the City of Cheyenne prohibits animals from running at large on city property, requires the registration of dogs and cats and requires that dogs be kept on leashes except while indoors or in fenced yards. In view of the above, if any animal is found running at large in Frontier Park, Animal Control will be called and the animal immediately impounded.

**For your safety as well as others – NO dogs or bicycles will be allowed on the fairgrounds. NO horses in Livestock Barns.**
