## DEPT. FLO—FLORICULTURE

Superintendents: Joy Jackson

Persons with disabilities and wishing special consideration may enter classes at the fair. The letter "T" should be added behind the class number on the entry form.

- ENTRY TAGS MUST BE SECURELY ATTACHED TO EACH EXHIBIT BY THE EXHIBITOR BEFORE EXHIBITS ARE ENTERED. USE STRING ONLY TO ATTACH TAGS TO BOTTLES JARS AND VASES. RUBBER BANDS NOT ALLOWED.

1. All flowers exhibited must have been grown in Wyoming by the exhibitor. Only one flower/plant may be entered in each class. The superintendents in charge of this department shall have the right to remove, at any time, from display, exhibits or parts of exhibits that have become unsightly. However, exhibitors are welcome, and encouraged, to replace any wilted or damaged flowers after the first day. These changes will aid in keeping the entire floriculture department more attractive for the entire duration. Flowers should be well preserved in transit. For longer lasting display, flowers should be cut early in the morning, or after sundown the previous day, with the longest stems possible, including the foliage. Place in cool area, in tepid water, for a minimum of 4 hours (preferably overnight), to completely harden. A sharp knife is best for cutting, making a diagonal cut on the stem (to allow as many plant cells as possible to be exposed) thus permitting the flowers to absorb a great deal of water.
2. Exhibitors must furnish containers in proportion to size of bloom. Containers are to be clear glass or plastic bottles and jars, or clear glass or plastic inexpensive vases (free of labels), (No artificial material of any kind is allowed including plastic, styrofoam, artificial flowers, or foliage). ENTRIES MUST BE THE SOLE CREATION OF THE EXHIBITOR. After flowers are conditioned, only 1" of water should be in the container and no foliage should be in water.
3. Artistic Arrangements - Only fresh or dried, dyed or treated natural plant material may be used in artistic arrangements. No artificial material will be allowed within arrangements. Foliage, accessories, and bases may be used

as desired. The arranger need not have grown flowers used in arrangements, however, arrangements must be the sole creation of the exhibitor. The committee will exercise all care, but will not be responsible for loss or breakage of containers or accessories

4. All Laramie County residents are urged to participate in the Floriculture division to make this a "Laramie County-Wide" exhibit. First time exhibitors may be given some assistance by the superintendents in preparing their entries to meet Floriculture rules. Potted plants and planters MUST have been the property of the exhibitor for at least three months before the Fair. All plant MUST be named.
5. Floriculture exhibits will be judged on:
6. Cultural perfection (form, color, substance, foliage, stem and size according to variety) - 60 points
7. Distinction of variety - 20 points
8. Condition - 20 points
  - In close decisions named and/or newer varieties will be given preference for awards.
  - An overall floriculture sweepstakes award and runner-up will be determined on the basis of overall points earned (purple=5, blue=3, red=2, and white=1).
  - Exhibitors may not win the sweepstakes

award for more than two consecutive years.

- Only judges, superintendents and clerks will be allowed in the Floriculture section during judging.

### SECTION 1 – CUT FLOWERS/ANNUALS

- Each specimen entered will be all of the same color unless otherwise noted.
